STANFORD9 PRACTICE TEST IN ENVIRONMENT - KINDERGARTEN
TEACHER EDITION - FORM B

Teacher says: We are going to do some problems. Look at the first row where you see SAMPLE A. Here you see three groups of people. Which of these people would come to your house to work for your parents, if they were building a room on to your house? Fill in the circle under your answer.

Teacher says: Which picture did you mark? That's right. You should have filled in the circle under the second picture. It shows the carpenters. They would come and work for your parents if they were building a room on to your house. Now move down to where you see SAMPLE B. Look at the pictures of insects. Which insect would travel by flying?

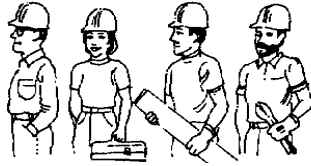

Teacher says: Which answer did you mark? That's right. You should have filled in the circle under the first picture. It shows the bee, and a bee gets from place to place by flying. Now we will do some more like these. Listen carefully as I read each question. Then fill in the circle under the picture that best answers each question.
